SERVICE

EVERGREENS

Beautify Your HOME

For the correct way to plant Evergreens select according to numbers indicated.

No. 1—Pyramidal Arbor-Vitae, American Arbor-Vitae, Irish Juniper.

No. 2—Pfitzer's Juniper, Savin Juniper.

No. 3—Mugho Pine, Globe Arbor-Vitae, Tom Thumb Arbor-Vitae.

Door-step Planting

Evergreens dignify the doorway entrance and at the same time establish a feeling of warmth and welcome so desirable at the entrance.

THERE is nothing that can quite take the place of Evergreens. In the summer their stately dignified grandeur adds serenity to the riot of colors in other vegetation, and in the snowy winter, their cheerful freshness gives one a comforting promise in the bleak landscape, that spring will come.

Spreading Japanese Yew
(*Taxus cuspidata*)

Upright Japanese Yew
(*Taxus cuspidata capitata*)

Black Hills Spruce
A great favorite for single specimen planting on the lawn. Famed for its shapeliness.

Evergreens for Specimen Planting

Austrian Pine

A favorite for ornamental planting, either in the background, or as a choice specimen on the lawn. Invaluable as a windbreak.

Douglas Fir

Drought resisting, probably the longest lived of all Evergreens. Grows quickly, with compact foliage. Excellent for backgrounds and lawn groups.

Canadian or American Hemlock

Young or old, the Hemlock is always a picture of gracefulness. Foliage dark green, lacy, close-set, drooping gracefully. The best Evergreen in heavy shade.

Colorado Blue Spruce

A very desirable, well shaped Evergreen. Heavy foliage of a rich glistening blue which flashes and sparkles in the sunlight. A beauty for the lawn.

Norway Spruce

An old-time favorite for windbreak and ornamental planting. Excellent for hedges, can be trimmed to any height. Preferred by many as a living Christmas tree.

Andorra Juniper

A low creeper of handsome color and form.

The low, spreading branches, seldom over 18 inches from the ground, are covered with artistic, fine cut foliage, which, through the spring and summer, is a bright silvery green, but at the first touch of frost turns to a handsome mauve-pink.
